- In order to capture high quality pictures, the power supply's cable and video output cable should not be too long.

2 Brief Introduction of the products

Specifications

Model	IP-DF13vf
Image Sensor	1/3" Aptina Low Illumination 1.3 Megapixel CMOS Sensor
Resolution	960P@25fps,720P@25fps,D1@25fps
Minimum Illumination	0.1Lux
S/N Ratio	>50db
Focus Mode	Manual
Day/Night	IR cut filter with auto switch
Network	1 RJ45 Ethernet interface, 10/100M adaptation
Delay	Within The LAN0.3S
Frame Rate	25 FPS (Adjustable)
Video Compression	H.264 /JPEG
Protocol	Protocols: TCP/UDP/RTSP/FTP/PPPOE/DHCP/DDNS/NTP/UPnP/SMTP
Onvif	Support Onvif 2.0
User Permission	Multi-user Classification Management
Power	DC 12V/1000MA
Consumption	3.0W
Lens	CS Lens 6mm/F2.0
IR Status	IR LED: ϕ5X21PCS IR range: 20M
Dimension (mm)	ϕ 149 x 99(H) mm
Weight (g)	750
Temperature	-20~50℃
Humidity	0%-90%RH,Without Condensation

Features:

- ◆ Weatherproof IR Camera IP66
- ◆ Advanced H.264 High profile compression
- ◆ Support all kinds of browsers:IE,Chrome,Firefox
- ◆ Support several servers, IP address, DDNS, FTP,SMTP
- ◆ Support single, dual, three streams
- ◆ Support iPhone, iPad, Android remote monitor
- ◆ Support connect to NVR
- ◆ Support ONVIF2.0
- ◆ Reliability and compatibility
- ◆ Low streams and high resolution image

3 Connection

4 Access to the IP Camera via IE

1. Use correct power supply
2. Make sure the device IP address is in the same LAN with the router, the default IP address of the IPC is 192.168.1.168
3. Go to CD->IPCSearch.exe and copy it to your computer
4. Open IPC Search, click "Search", you will find the device IP, and you also can modify the IP information, see the picture on the left:
5. Factory default IP setting:
IP Address : 192.168.1.168
Subnet Mask : 255.255.255.0
Gateway : 192.168.1.1
User name : admin
Password : admin
6. After modifying IP, click "Search" again, you will find the new IP of the your device. Double-click the new IP, you can access to the IPC via IE, or enter the IP Address in the address bar of IE, then click "Enter", the download_OCX controls interface please see below picture:

7. Please click here to download the OCX controls, as is shown in the following picture:

Click run, the system will automatically download the OCX, click "yes" in the following picture:

Then it will install the OCX, when complete ,the window below will pop up:

Click "OK" and refresh the page. You will enter the login interface, as is shown in the left picture:

Enter your username and password, you can start to access and control your IP Camera.

5 Access to the IP Camera via Multi_window

Go to CD->find Multi_window.exe. Copy Multi_window.exe to your computer and install it, then run it. See below:

1. Config:Group.See below: Here you can add your IP Cameras and set the Capture Path. If you

forget the IP Address, you can click "Search" to search your IP Cameras. You can select "List all ipcam" or "List only unselect", then

double click the IP info to add the camera. You also can enter the IP Info manually in the "IPcam Information area" Then you can view the images and set the parameters of IP Camera, such as Alarm, Video, Net, Camuser, Date, etc. Please refer to Multi_window Customer Manual for detail.

2.View the images

After adding the devices, you can see the devices in "List" of the main interface, you can double _click the device to control it to play or stop. See below picture: You also can control

the devices in "Camera", see the picture on the right:

6 Access to the IP Camera via Android mobile

Search and download the surveillance software "MEyepro" to your mobile from electronic markets or the Mobile Assistant,

then install it. Then you can see the icon of the software ,click it to run.

- 1.The following picture shows the main interface:

- 2.Live view See the picture on the right.

Click the button "PTZ" , and you will see the PTZ function buttons, see below picture:

Button function:

Button	Name	Button	Name
	Play		Switch channels
	Snapshot		PTZ Control
	Local Record		Zoom
	Configure		Focal
	PTZ		Iris
	About		

3.Device list

: Add device, Input Device name, IP address or domain name, port, username, password, Max Channel, then click "OK" to finish and save.

: Edit device. Modify Device name, IP address or domain name, port, username, password, Max Channel, then click "OK" to finish.

 :Delete device. If you want to delete the device, please click this button, then select the device name to delete it.

4.Saved photos

Please see the picture on the right:

If you want to delete the photos, select the photo and click "Delete" on the top right of the interface, it will pop up a tip, click "OK" to delete the photo.

5.Local Video

Please see the picture on the right:

Select the file to playback. If you want to delete the videos, select the video and click "Delete" on the top right of the interface, it will pop up a tip, click "OK" to delete it.

6.About

Please see the picture on the right:

It is the information about the monitor software.

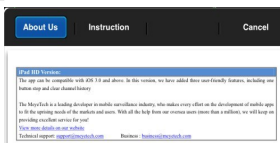

- Double tap again to return to multi view.
- Touch a channel on the screen and drag it to the channel position to rearrange your viewing window. As is shown in the following figure:

- Switch the channel viewing mode from four to six using these buttons on the control bar:

4.About

It is the information about the monitor software. As is shown in the picture on the right:

5.Other Buttons

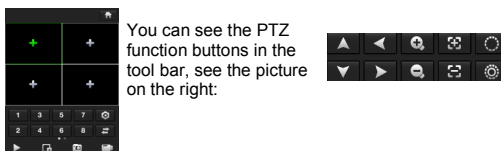

Button	Name	Button	Name
	Play		PTZ
	Snapshot		PTZ Control
	Local Record		Zoom
	System settings		Focal

7 Access to the IP Camera via iPhone

Search and install the surveillance software "ASee+" on line to your mobile from App store. Then you can see the icon of the

software  click it to run.

1.The following picture shows the main interface:

You can see the PTZ function buttons in the tool bar, see the picture on the right:

Button function:

Button	Name	Button	Name
	Play		Clear
	Snapshot		PTZ Control
	Local Record		Zoom
	Menu		Focal
	Iris		

2.Device list

 : Add device. Input Device name, IP address or domain name, port, username, password, Channel number, then click "Save" to finish.

Button	Name	Button	Name
	Iris		Switch channels
	Stop		Clear
	Photos		Records
	About		

4 Package List

NO.	Name	Model	Number (pcs)
1.	HD-IP Camera	IP-DF13vf	1
2.	CD	IP-DF13vf	1
3.	IPC Fast Operation User Manual	IP-DF13vf	1

:Edit the device. Modify Device name, IP address or domain name, port, username, password, Max Channel, then click "Save" to finish.

:Delete device. If you want to delete the device, please click this button, then select the device name to delete it.

3.Local files

Photos :Select the photos to view. If you want to delete the photos, select the photo and click "Delete" on the bottom-right of the interface, it will pop up a tip, click "OK" to delete the photo.
